

Creature Commons — Impact Lab BLR — Attendee Handbook

Wifi: Name:Yoda_3F

Password:Force900

Welcome

Join the WhatsApp group for easy communication:

https://chat.whatsapp.com/IJ3amc9VbSGLtI0HOUgVOn?utm_source=luma

Introduce yourself and tell us what you're excited about — this is a highly curated room.

Venue & Floors (Day 1)

Anakin.io is right beside MTR.

- Check in on the 3rd floor — get your name tag
- Opus Build Day — 3rd floor
- Creature Commons — 4th floor
- Food — 5th floor only
- Coffee machine — 3rd floor
- No parking near the venue — plan your commute (cab, metro, walk)

Day 1: Saturday, 26 September (Humans only)

Venue: Anakin Office, HSR

Focus: species-machine interaction, with mentor and workshop sessions throughout the day.

- 9:00 – Check-in + Breakfast
- 10:00 – Opening + Species Machine Interaction (SMI)
- 11:00 – Claude Session
- 11:30 – Design sprint
- 13:30 – Lunch
- 14:30 – Workshops on Physical AI, Electronics 101, Sensors & Motion, Computer Vision & Speech + participants receive hardware equipment & Claude credits
- 15:30 – Design sprint 2
- 16:00 – Progress check + Mentor Feedback
- 17:00 – 18:30 – Optional: stay back and keep building

Day 2: Sunday, 27 September (Optional — bring your pet)

Venue: Workhome, Koramangala

This is where pets join in for real-world testing, followed by pitches.

- 9:00 – Check-in + Breakfast
- 10:00 – Opening + FOSS Guidelines + Judging Criteria
- 11:00 – Build sprint + Mentorships
- 13:30 – Lunch
- 15:00 – Submissions
- 15:30 – Project Showcases
- 16:30 – Winner Announcement
- 17:00 – Photo Op + Open House + Networking

What to Bring

- Your laptop
- Hardware components — provided; see list:
https://docs.google.com/document/d/1Na2pyIjTnlMfxPpeTK7IyNoqasPvfVrMd-M7-mMITU/edit?usp=sharing&utm_source=luma
- Never built physical AI or played with electronics before? No worries, the room is well equipped to support you through it

Claude Credits

Every attendee gets 100 USD in Claude credits.

- Listen carefully to the redemption instructions — don't just click next at every step
- Credits can only be redeemed by the email approved on Luma; no changes can be made to this
- Sharing the credit link around results in a permanent ban from all our events, and possibly from Claude

No Prize Money

We don't offer prize money, to keep the hacker spirit of building alive.

Mentors

We have amazing mentors on site — ask them for help whenever you're stuck.

Judging Criteria

- New Capability (25%) – does it use something the new model can do that the previous one couldn't?
- It Works (25%) – did it run live and do what you said it does?
- Keep or Share (25%) – would you use it next week, or send it to a friend?
- Clarity of Demo (25%) – is the problem and what the model did obvious within two minutes?

Pitching

Selected teams pitch at the showcase – how you're doing mid-journey matters as much as your final submission.

- 90 seconds, no more
- Show the demo first, then say who it's for
- Going over time is negatively marked

Share As You Build

Keep posting while you build – the Claude team loves seeing work in progress.
